Update June 2022

**So, you want to be a Brilliant MC!**

A fairly common comment that we get after people have a look at our resource website is ...

*"There's so much information here! Where do I start? What should I do first?"*

After responding to hundreds of these queries over the last couple of years with various different ideas and then watching the progress of these people in our community, we finally settled on this "Road Map" that we are sharing with you!

We think this is the optimal learning path to becoming a Better MC! And if you choose to take it on, we will give you an extra resource to start growing an MC Business.

We know you want to be a better MC, you've already taken the first step by downloading this.. **So lets continue!**

The Road Map is divided into 3 Parts **Ready - Aim - Fire**

Now, it is **important** to do the steps in order, as some of the later steps build on the earlier ones.

And it's **important** to do all of them. You may not think you need to set up everything listed in Part 1, but once you get to Part 3 you'll kick yourself if you didn't set it up weeks before.

**Time Frame** Everyone is going to go through this at a different rate. You could possibly do one step a day or more realistically one a week.

I'm a big fan of the 12 Week Year concept, fully explained in one of the steps, and think that anyone could see some great results within that time frame.

The important thing is going through the Road Map **step by step**.

Mark off the Tick Box as you complete each one. You can also set Deadline Goals if you want.

Good Luck on Your Journey
